

Name: Raveena Ingale

Project Name: NEUKarma

Project Description:

NEUKarma is a comprehensive social platform designed to foster collaboration, knowledge sharing and community engagement within Northeastern University and its surrounding community. Built on the SpringBoot framework, NEUKarma offers a range of features tailored to enhance NU Experience:

Key features:

1. Karma System: Karma points awarded for assisting other users
2. Real time Chat system: Chat functionality for instant communication between registered users
3. Assistant system: Users can request assistance and offer help to others and earn karma points based on level of assistance provided
4. Marketplace: Exchange karma points for rewards in marketplace
5. Feed section: Personalized feed displaying relevant post, likes, dislike, comment feature
6. Service section: Users can create and offer services to others.
